

Opportunities For Care Facilities

Residents Receive More Personalized Service & Care Facilities Run More Efficiently With GrandCare

Managing a senior care facility requires top-notch service at a low-cost to residents. Service is a delicate balance between providing quality assistance and respecting independence. GrandCare provides a cost-effective system to monitor the activity and wellness of seniors without compromising their dignity.

- Create a Care Triangle among seniors, their families and your staff.
- Provide improved safety and security.
- Gather more information for assessment to help in care decisions with the family.
- Share peace of mind between residents and their families, by knowing all is well.
- Discreetly monitor activity through wireless sensors.
- Coordinate schedules with staff.
- Exchange and record notes and memos between staff and family.
- Improve each resident's health by better management of chronic conditions.
- Provide a new source of revenue for your business or organization.

GrandCare can decrease operating costs while maintaining quality service. Residents receive enhanced services, facilities run more efficiently, and less money is wasted on unnecessary work.
