

Intelligent “my way” solutions for long term wellness, aging in place & 24/7,365 communication with those you love & trust.

*HDA’s using the GrandCare system program are HIPAA compliant and have been approved by the FDA for sharing health data over the internet.

May be reimbursed by your insurance carrier.

**Installations available across the United States.

VirtualCaregivers.com is where you can find more information on the features and uses of how empowering HDA’s are. You now have a choice on how you communicate, live, and the tools to spend less for many years to come.

Harper Technology Group is the name to trust for the installation, and programming of your HDA system.

We are a family owned & run telecommunications infrastructure design & integration firm with 35 years of on the job design and installation experience in commercial electrical, telecommunications, and building control & automation systems.

HTG knows there is more than just putting the best technology to good use. For those situations, our licensed Registered Nurse & Geriatric care manager is an integral part of the consultation, training, and solution , to ensure the HDA can support your wellness or care plan properly.

Your system is warranted; so you may rest assured that your investment is protected. Our family wants you to be happy with a hand me down that is reliable for years to come, **and if you no longer need the system, HTG will buy it back!!!**

The stay at home, save a buck, stay safe & empowered, stop a scam, family & caregiver Interactive Communication Solution

In sickness or in health, LIFE is richer with a home digital assistant.

Get plugged in, know, and see more than you have ever imagined.

No technical expertise is required.

Engineered & Supported in the U.S.A

*Home Digital Assistants (HDA) use sensor webs, created by NASA.
 *HDA's provide the much needed DATA for intervention & preventing a health crisis, & better supporting tele-rehabilitation & hands on care.

*How do you communicate with your grandkids? Out of state family?

*How will you build a circle of trust in crisis? Ensure accountability?

*How do you ensure the integrity of your family, home, or assets?

**Better coordinate your needs & the family schedules.

The internet now virtually brings physicians to you & even allows remote monitoring of vital signs & medication history & compliance**

Few of the highlights of HDA's

Today, your TV's can receive letters, messages, events, and reminders from anywhere in the world.

Socialize, reminisce, enjoy a video phone, view pictures, family face book photos without a computer!

Virtual travel with internet cameras!

It is simple to update your feelings to physicians, family, and friends before they worry, and call you!
 This machine makes it easy to track over time, how many good days you have compared to bad days.

Live at home with more safety and more Peace of Mind.

Monitor windows, callers personal drawers, doors e.g Send & receive notifications, **Without** having to push a button.

No more asking for information! Personal Health Records are now yours for anytime reference. More data = better health management.
